student

⚠️⚠️CAUTION:

It's (this article) not the last decision. It's my opinion according to my minikin knowledge about evolution. I believe that the whole about evolution is behind my eyes, yet. The word or sentences may be changed any time- by time according to the knowledge I achieve.....

DON'T TAKE IT AS DECISION ✍️ ONLY COLLECT INFORMATION....

I'm..... Ali Zaker Hussain Tasin, student of science, voicing from Mymensingh. A few days ago my honorable Sir Dr. Debabrata Chakraborty (medical officer, MMCH) said about evolution, which made me so excited... actually made me 'Drunk' to know

about evolution. But because of so many reasons I became unable to fulfill it; but did some. As I'm interested about "spirituality-meditation-religion" which are related to science, I wanted to know at a glance the religious point of view about evolution.....

reading some about this I became marveled... My view point about Evolution rotated at an angle of 180°.

• ISLAM AND HINDUISM ABOUT EVOLUTION

I've added references here for all of yours betterment. The references added here, taken from "THE HOLY QURAN" and translation is of IRFAN-UL-QURAN translated by Prof. D. Tahir Ul Qadri (an anti-terrorism activist & professor of Al Azhar University, Egypt)..... and the references from Hinduism, gave Sadhguru

Firstly, the references from Quran

BY THE WAY... MONITION: Please read this the following before reading whole article. { we, especially I, knew about the viewpoint of science about evolution that "Human's ancestor is monkey!" . It's a matter of grief that Science didn't say something in such a way. It's made of us and some detractors to make conflicts and confusions between Science & religion and between Scientists & Civil population.....so refresh your mind..... }

Let's start...

Firstly, the references from Quran

 [al-Ambiyā', 21:30]

{ ۝۳۰ حَيَّ شَيْءَ كُلِّ الْمَاءِ مِنْ جَعَلْنَاهُ ۖ فَفَتَقْنَاهُمَا رَتْقًا كَانَتْهُمَا الْاَرْضُ وَ السَّمٰوٰتُ اَنْ كَفَرُوْا النَّارِ يَرٰ لَمْ اَوْ

And have the disbelievers not seen that the whole heavenly universe and the earth were (all) joined together as one unit, and then We split them apart? And We originated (the life of) all the living organism (on earth) from water. So do they not accept faith (even after learning these facts brought forth by the Qur'an)¹

¹ Translation by D. Muhammad Tahir Ul Qadri

●[al-'Ankabūt, 29:20]

{٢٠٠} قَدِيرٌ شَيْءٌ كُلِّ عَلَى اللَّهِ إِنَّ ۖ ۚ الْآخِرَةَ النَّشْأَةُ يُنْشِئُ اللَّهُ ثُمَّ الْخَلْقَ بَدَأَ كَيْفَ فَاتَّظَرُوا الْأَرْضَ فِي سِيرَتِهَا قُلْ

Say: 'Travel in the land (to study life in the universe), then observe (i.e., meditate and research) as to how He initiated (the life of) Creation and how He raises and nourishes the second life (passing it through evolutionary stages). Surely, Allah has perfect power over all things.

●[al-A'rāf, 7:11]

{١١} السَّاجِدِينَ مَنِ يَكُنْ لَمْ ۖ ۚ إِبْلِيسَ إِلَّا فَسْجَدُوا ۖ لَأَدَمَ اسْجُدُوا لِلْمَلَكَةِ قُلْنَا ثُمَّ صَوَّرْنَاكُمْ ثُمَّ خَلَقْنَاكُمْ لَقَدْ وَ

And certainly, We did create you (i.e., your real being), then gave you shape (i.e., accomplished the phases of chemical and biological genesis and evolution of life till the completion of the physical existence of Adam). Then We commanded the angels: 'Prostrate yourselves before Adam.' They all prostrated themselves except Iblis; he was not of those who prostrate themselves.

●[Hūd, 11:7]

إِنكُمْ قُلْتُمْ لَنْ وَ ۖ ۚ عَمَلًا أَحْسَنَ أَيْكُمْ لِيَبْلُوَكُمْ الْمَاءَ عَلَى عَرْشِهِ كَانَ وَ أَيَّامَ سِتَّةَ فِي الْأَرْضِ وَ السَّمَوَاتِ خَلَقَ الذِّي بَوَّ وَ {٧٠} مُبِينٌ سِحْرٌ لَا بَدَأَ إِنَّ كَفَرُوا الَّذِينَ لِيَقُولَنَّ الْمَوْتَ بَعْدَ مِنْ مَبْعُوثُونَ

And He (Allah) is the One Who created the heavens and the earth (the higher and the lower strata of the universe) in six days (i.e., six phases or aeons of creation and evolution). And (before the creation of the earth) His Throne of Authority operated on water, (and from that He brought forth all manifestations of life and created you,) so that He put you to trial to evaluate which of you would be best in action. And if you say: 'You will be raised after death,' the disbelievers will certainly say: 'This is nothing (else) but an obvious magic.'

 [al-Hajj, 22:5]

مُخْلَقَةٍ غَيْرَ وَ مُخْلَقَةٍ مُضَعَّجَةٍ مِنْ ثُمَّ عُلِقَ مِنْ ثُمَّ تُطْفَئُ مِنْ ثُمَّ تُرَابٍ مِنْ خَلَقْنَكُمْ فَإِنَّا الْبَعَثُ مِنْ رَبِّهِ فِي كُنْتُمْ إِنَّ النَّاسُ يَأْتِيهَا مِنْكُمْ وَ يَتَوَقَّى مَنْ مِنْكُمْ وَ أَشَدَّكُمْ لِيَتَلَقَّوْا ثُمَّ طِفْلاً نُخْرِجُكُمْ ثُمَّ مُسَمًّى أَجَلَ إِلَى نَشَاءَ مَا الْارْحَامَ فِي تَقَرُّ وَ لَكُمْ لِيُثَبِّتَ مِنْ أَثَبَّتَ وَ رَبَّتْ وَ ابْتَزَّتْ الْعَاءَ عَلَيْهَا أَنْزَلْنَا فَإِذَا بَامِدَّةٌ الْارْضَ تَرَى وَ شَيْئًا عَلِمَ بَعْدَ مِنْ يَعْلَمُ لِكَيْلَا الْعُمْرُ ارْتَدَّلَ إِلَى يَزِدَّ مَنْ {٥٠} بِمَيْجِ زَوْجٍ كُلِّ

O people! If you are in doubt about being raised up (after death), then (contemplate your creation and evolution). We initiated your creation (i.e., chemical genesis) from (the extract of) clay,* then (your biological genesis) from a sperm drop (zygote), then from a hanging mass (clinging to the uterus like a leech—embryo) and then from a lump of flesh looking chewed, having manifest contours of elementary formation of some parts of the body and others yet to form (fetus), so that We might show you (Our power and the trueness of Our Revelations). So We cause whom We please to stay in the wombs till an appointed time. Then We bring you forth as an infant, then (nourish you) so that you may reach your youth. And of you are (also) some who die (early), and some are brought to the age of senility so that (he may see this state too that) having learnt so much knowledge, now he knows (just) nothing (once more). And you see the earth completely dry (i.e., dead) and, when We shower water on it, a stir of freshness and fertility runs through it. And it swells enriched, and puts forth in pairs every kind of blooming and beauteous vegetation.

* Comprising minerals, metals, salts and chemical elements like calcium, sodium, phosphorus, potassium, natrum, kalium, silicon, chlorine, iodine, fluorine, magnesium, zinc, sulfur, ferrum, cuprum, etc. These and other elements of clay also form the ingredients of a balanced diet essential for our nourishment. The animals whose meat and milk we take live on the vegetable world. The grain, vegetables, fruits and roots that form our food feed on the soil they grow in and absorb all its chemicals.

 [Fussilat, 41:10]

{١٠٠} لِّلْسَاتِلِينَ سَوَاءٌ ۖ أَيَّامٍ أَرْبَعَةٍ فِيْ أَقْوَاتِهَا فِيْهَا قَدَرٌ وَ فِيْهَا بَرَكَ وَ فَوْقَهَا مِنْ رَّوَاسِيْ فِيْهَا جَعَلَ وَ

And He placed over it heavy mountains (brought forth) from within it and treasured in it (His infinite) blessings (minerals, water reservoirs, natural resources and other substances and forces and energies) and provided and appointed in it sustenance (i.e., necessities of life for all the creatures. He) accomplished (all that) in four days (i.e., four evolutionary periods. All of this sustenance is in fact) equal for all seekers (and the needy).

﴿[an-Nāzi‘āt, 79:34]

﴿٣٤﴾ الْكِبْرَى الطَّامَّةَ جَاءَتْ فَإِذَا

Then, whilst (the universe) attains (to its acme through evolution), there will befall the great all-encompassing calamity (the Hour of Resurrection).

﴿[al-Insān, 76:1]

﴿١﴾ مَذْكُورًا شَيْئًا يَكُنْ لَمْ يَكُنِ الدَّهْرُ مِنْ حَيْثُ الْإِنْسَانُ عَلَى أَتَى بَلْ

Surely, there has passed over man a period of time when he was not a thing worth mentioning.

﴿[al-‘Ankabūt, 29:20]

﴿٢٠﴾ قَدِيرٌ شَيْءٌ كُلٌّ عَلَى اللَّهِ إِنَّ ۖ الْآخِرَةَ الْفَشَاةُ يُنْشِئُ اللَّهُ ثُمَّ الْخَلْقَ بَدَأَ كَيْفَ فَاتَّظَرُوا الْأَرْضَ فِي سِيرَتِهَا فَلْ

Say: ‘Travel in the land (to study life in the universe), then observe (i.e., meditate and research) as to how He initiated (the life of) Creation and how He raises and nourishes the second life (passing it through evolutionary stages). Surely, Allah has perfect power over all things.

﴿[Nūh, 71:14]

﴿١٤﴾ أَطْوَارًا خَلَقَكُمْ قَدْ وَ

Whereas He has created you through diverse conditions

﴿[al-An‘ām, 6:2]

{٢٠} تَمْتَرُونَ أَنتُمْ ثُمَّ عِنْدَهُ مُسْمًى أَجَلٌ وَ ١٦٠ أَجَلًا قَضَى ثُمَّ طِينٌ مِّنْ خَلْقِكُمُ الَّذِي بُو

(Allah) is He Who created you from mud (i.e., originated from it the chemical genesis of human life on the planet Earth). Then He fixed a term (for you to die). And with Him alone is the appointed time (for holding the Day of Resurrection); yet you doubt.

● [Nūh, 71:17]

{١٧} تَبَاتَا الْأَرْضُ مِّنْ أَثْبَتِكُمُ اللَّهُ وَ

And Allah has caused you to grow like vegetation from the earth.*

* Like plants, the genesis and growth of human life has also taken place on earth gradually, passing through its chemical and biological phases. This has been explained here through comprehensive metaphorical expression: vegetation—*anbata-kum mina'l-ardi nabata*.

● [at-Taghābun, 64:3]

{٣} صُورَكُمْ فَأَحْسَنَ صُورَكُمْ وَ بِالْحَقِّ الْأَرْضَ وَ السَّمَوَاتِ خَلَقَ

He is the One Who created the heavens and the earth with a rationale and purpose. And (He is the One Who) gave you shapes and then did up your shapes. And (all) have to return to Him alone.

● [an-Nisā', 4:1]

{١٠} رَقِيبًا عَلَيْكُمْ كَانَ اللَّهُ لَنْ ١٦٠ الْأَرْحَامَ وَ بِمِ تَسَاءَلُونَ
الَّذِي اللَّهُ اتَّقُوا وَ ١٦٠ نِسَاءً وَ كَثِيرًا رِجَالًا مِنْهُمَا بَتَّ وَ زَوْجَهَا مِنْهَا خَلَقَ وَ وَاحِدَةً نَفْسٍ مِّنْ خَلْقِكُمُ الَّذِي رَبَّكُمْ اتَّقُوا النَّاسُ يَأْتِيهَا

O mankind! Fear your Lord, Who (initiated) your creation from a single soul, then from it created its mate, and from these two spread (the creation of) countless men and women. So, fear Allah for Whose sake you solicit needs from one another. And (become Godfearing) towards your

own kith and kin (as well). Allah is indeed Ever-Watchful over you.

● [Ghāfir, 40:64]

فَتَبَارَكَ ^ط رَبُّكُمْ اللَّهُ ذَلِكُمْ ^٥ الطَّيِّبُتِ مِنْ رَزْقِكُمْ وَ صُورَكُمْ فَاحْسَنَ صُورَكُمْ وَ بَنَاءَ السَّمَاءِ وَ قَرَارًا الْأَرْضِ لَكُمْ جَعَلَ الَّذِي اللَّهُ
{٥٦٤} الْعَلَمِينَ رَبُّ اللَّهِ

Allah is the One Who made the earth a dwelling place for you and the heaven a ceiling and gave you form and features and then perfected your shapes and granted you sustenance of pure things. Such is Allah, your Lord. So Blessed is Allah, the Lord of all the worlds.

● [ar-Rūm, 30:27]

{٢٧٠} الْحَكِيمُ الْعَزِيزُ بُوَ ^٥ الْأَرْضِ وَ السَّمَوَاتِ فِي الْأَعْلَى الْمَثَلُ لَهُ وَ ^٥ عَلَيْهِ ابْتَوْنُ بُوَ وَ يَعِيدُهُ ثُمَّ الْخَلْقَ يَبْدُوا الَّذِي بُوَ وَ

And He is the One Who originates creation, then will regenerate it and this (recreation) is very easy for Him. His is the highest Glory in the heavens and the earth and He is Almighty, Most Wise.

● [al-Infītār, 82:7,8]

{٧٠} فَعَدَلَكَ فَسَوَّيَكَ خَلَقَكَ الَّذِي

(The One) Who created you (from a fertilized ovum in the mother's womb), then, (to structure your limbs at the fetal stage,) He shaped you aright, then brought about proportionate alteration in your constitution?

{٨٠} رَكَّبَكَ شَاءَ مَا صَوَّرَ آيَ فِي

He constituted you in whatever form He willed.

 [as-Sajdah, 32:7, 8,9]

{٧-} طِينٍ مِنَ الْاِنْسَانِ خَلَقَ بَدَاً وَ خَلَقَهُ شَيْءٌ كُلَّ اِحْسَنَ الَّذِيَّ

He is the One Who endowed everything He created with perfection and virtue. And He initiated the genesis of man from clay (i.e., inorganic matter);*

* Comprising minerals, metals, salts and chemical elements like calcium, sodium, phosphorus, potassium, natrum, kalium, silicon, chlorine, iodine, fluorine, magnesium, zinc, sulfur, ferrum, cuprum, etc. These and other elements of clay also form the ingredients of a balanced diet essential for our nourishment. The animals whose meat and milk we take live on the vegetable world. The grain, vegetables, fruits and roots that form our food feed on the soil they grow in and absorb all its chemicals.

{٨-} مَّهِينٍ مَّاءٍ مِنْ سُلَّالَةٍ مِنْ تَسْلَةٍ جَعَلَ ثُمَّ

Then He reared his lineage from the extract of a worthless fluid (a sperm drop);

{٩-} تَشْكُرُونَ مَا قَلِيلاً ۖ الْاَفْئِدَةُ وَالْاَبْصَارُ وَالْاَسْمَاعُ لَكُمْ جَعَلَ وَ رُوحِهِ مِنْ فِيهِ نَفَخَ وَ سَوَّاهُ ثُمَّ

Then He perfected (organs and limbs in) him and breathed into him of His spirit (i.e., life) and made for you (also in the mother's womb) ears and (then) eyes and (then) heart and brain. You give thanks but little.

 [we had better watch a YouTube video of Tahir Ul Qadri about evolution with subtitles :](https://youtu.be/MFNW9g2fC-o)

<https://youtu.be/MFNW9g2fC-o>

these translation was by **D. Muhammad Tahir Ul Qadri**..... saying something about Him.....

Tahir Ul Qadri is a prof. of Al Azhar University (tasawuf) and ex prof. of Panjab University (international constitutional law), founder of political group 'Pakistan Awami Tehrik' and Islamic organization 'Minhajul Quran'. He is one of the most influential 500 Muslim

...some link to know about him more

Now about the Hinduism.....

The concept of evolution in Hinduism runs absolutely parallel to Darwin's theory of evolution.

Famous Hindu meditator and icon of modern Hindu spiritualism **Sadhguru** (Sadhguru (born Jagadish Vasudev, 3 September 1957) is the founder and head of the Isha Foundation, based in Coimbatore, India.)also delivered a speech about evolution. There he said about Adiyogi, who said about our evolution of life and added the starting of life was from water..... which run parallel to modern science and parallel to The Holy Verses of Quran (21:30). For you I've added the link of Sadhguru's speech's video.

1.<https://youtu.be/5o3oFKlknzg>

2. the text of the lecture:<https://www.sadhguruwisdom.org/wisdom/the-theory-of-evolution-darwin-or-adiyogi-is-it-really-different/>

Now it's the age of modern science and knowledge. I've gave you references and informations.

Now the rest (believing) is in your hand. Decide, what will you follow!
either the concept made of fools, or the concept proved by Science and Religion.

Good Bye
May Allah (God) bless us all, showing the right path. '
